Front overview

The variety of designs is second to none. You can freely choose and combine finishing materials. A large selection of designs is also available for 'handlelessART'.

Frentes – Visión de conjunto

La diversidad de muebles satisface todos los deseos. Puede elegir y combinar libremente los diferentes materiales. También se suministra una gran diversidad de los programas para el sistema ART sin asas.

Elenco modelli

La varietà di modelli disponibili non lascia alcun desiderio insoddisfatto. Potrete scegliere e combinare a piacimento i differenti materiali. Anche per la cucina con la gola sono disponibili diversi modelli.

Fronter – oversigt

Forskellige modeller opfylder alle ønsker. Du kan frit vælge og kombinere med materialeversionerne. Mange af programmerne er også tilgængelige til grebsløsART.

Our anti-finger print surfaces are produced with an innovative varnishing method. This lacquer has a particular microsurface particle structure, which seamlessly aligns to each other. This lacquering method ensures quick evaporation of water based finger prints.

Las superficies antihuellas se obtienen con un proceso de lacado innovador. La pintura contiene partículas especiales que se unen sin dejar huecos. La textura especial de la superficie con una capa de pintura asegura una rápida «evaporación» del sudor de las manos.

Le superfici anti-impronta sono trattate con un innovativo procedimento di laccatura. Questa è composta da speciali particelle che si allineano perfettamente tra di loro. Questa particolare struttura microscopica della laccatura fa sì che l'umidità del sudore sulla punta delle dita evapori immediatamente.

Antifingeraftryksoverfladerne fremstilles ved hjælp af en innovativ belægningsproces. Lakken indeholder specielle partikler, der ligger ved siden af hinanden uden mellemrum. Denne specielle mikrooverfladestruktur i laklaget sikrer, at håndsvet "fordamper" hurtigt.

PerfectSense®

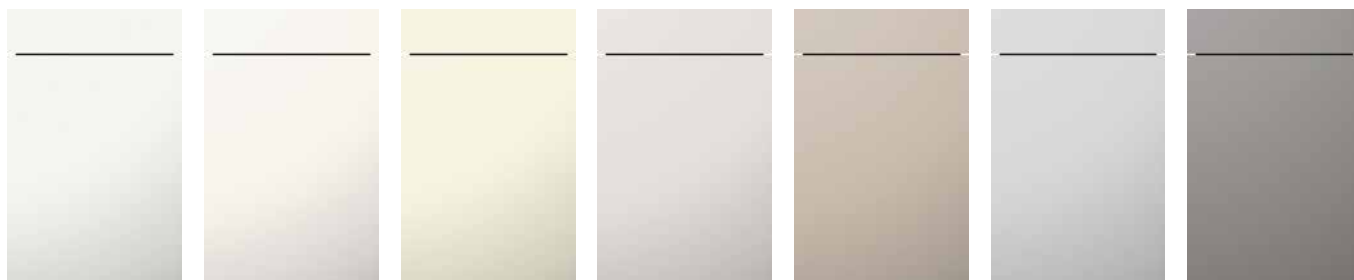

The high-quality PerfectSense® surfaces convince with visual perfection as well as high resilience and durability. The surfaces finished with a layer of lacquer are giving the kitchen an exclusive and noble character.

Las superficies PerfectSense® de alta calidad destacan por su perfección visual, así como por su gran durabilidad y resistencia. Las superficies con un acabado de pintura le dan un carácter exclusivo y noble a tu cocina.

Le preziose superfici PerfectSense® si fanno apprezzare sia per la perfetta estetica, sia per le doti di elevata robustezza e resistenza. La speciale laccatura delle superfici conferisce alla cucina un carattere raffinato ed esclusivo.

PerfectSense®-overfladerne af høj kvalitet overbeviser med visuel perfektion, høj modstandskraft og lang holdbarhed. De lakerede overflader giver køkkenet et eksklusivt og raffineret udtryk.

Handles

Besides single handles and knobs, there are handle systems available, that are matching the cabinet widths.

Tiradores

Además de botones y tiradores, hay muchos sistemas de agarre, que se suministran conforme a las anchuras del armario.

Maniglie

Oltre a pomelli e maniglie, sono possibili tanti sistemi di maniglia, abbinabili in base alla larghezza del armadi.

Greb

Ud over knopper og greb findes der mange grebssystemer, der leveres passende til skabsbredderne.
